## Dear parents, dear legal guardians,

More than 360,000 children and young people under the age of 19 live in Vienna. They know best which interests and concerns they have in their lives. They have their whole future ahead of them. This is why the City of Vienna has started the large-scale hands-on project “Werkstadt Junges Wien” in January 2019.

We want to work together towards developing our city further in all the places where children spend their time: in kindergartens, after school care clubs, schools, youth centres, parks, sports or arts clubs and many other locations. **Vienna will be turned into a “Werkstadt”**, a city with numerous workshops where we aim to involve thousands of children and young people in planning their future together with us. We want to know: What do you like about the city? What don't you like about it? What would you need for the future?

Together with teachers, youth workers, social workers and volunteers, more than 10,000 young Viennese will envision what the city should look like and how it should function from their perspective. The results will form the basis of the City of Vienna's Children and Youth Strategy, which should guarantee that children and young people enjoy living in our city also in the future and can reach their full potential.

We are glad your child is part of this project and helps shape the future of our city!

If you want to know more about this project please visit the website [www.werkstadt.junges.wien.gv.at](http://www.werkstadt.junges.wien.gv.at) or talk to the staff of your child's kindergarten, school, youth club, or other organisation. You can also email me in person at [juergen.czernohorszky@wien.gv.at](mailto:juergen.czernohorszky@wien.gv.at)

I wish you all the best and thank you for your child's contribution!

Jürgen Czernohorszky  
Executive City Councillor for Education and Youth
